Building & Constructions

Long Term Durability And Anti-Corrosive FRP In Constructions

In the building and constructions, there need lots of structure supporting, walkways and cable management.

The FRP is more and more popular all over the world, and it is regard as replacement of wood and steels because of its lightweight but strong structure. **FRP profiles** are widely used for support structures and FRP gratings are used in parks and other buildings are platforms and walkways.

Why Choose FRP Products

- **High Loading capacity.** For structure supporting and heavy vehicles access.
- **Humidity resistance.** No shrinking or deformation even being exposed to the salty water or air for long time.
- **Strong but lightweight.** Same loading capacity but 1/3 weight of steels.
- **Anti-aging performance.** UV inhibitors are added for anti-aging even in harshest environments.
- **Easy installation & fabrication.** Lightweight FRPs make installation and fabrication easy and fast.
- **Little maintenance.** No need cleaning or painting to save maintenance costs.
- **Long term durability.** More than 35 years lifespan is worthy for your choice.

What We can Supply

Platform & Walkways

Stair System

Scaffolding

Insulation Ladders

Cable Tray

Cable Bracket

Fencing
